<b>Conceptual Framework</b>			
<p>A comprehensive project focusing on the elements of financial statements, measurement, reporting entity, and presentation and disclosure.</p>	<p>The IPSASB has made it clear that it is developing its own Conceptual Framework, not an interpretation of the IASB's Framework. However, the IASB's approach can inform the IPSASB's approach.</p>	<p>On 28 January 2013, a discussion forum on the topic of disclosures in financial reporting was held. Key messages from the forum were communicated in a feedback statement on the disclosure forum issued on 28 May, 2013.</p> <p>A Discussion Paper was issued in July 2013 with a consultation period to 14 January 2014. Additionally, a series of Conceptual Framework outreach and roundtable sessions was held in London, Toronto, Sao Paulo and Tokyo, throughout October and November 2013.</p> <p>An ED was issued in May 2015 with a consultation period to 25 November 2015.</p> <p>Deliberations continue in regards to the Conceptual Framework. The current timeline for issuance of the Conceptual Framework is after 6 months.</p> <p>A revised Conceptual Framework is expected Q1 2018.</p>	<p>The IPSASB's Conceptual Framework was completed in 2014.</p>

amortization and impairment approach); and - The extent to which other intangible assets should be separated from goodwill.			
<b>Discount Rates</b>			
Many IFRSs specify, or refer to, the discount rate that must be used to discount estimates of future cash flows. Different Standards specify different discount rates, depending on the objective of the particular IFRS. This research project examines discount rate requirements in IFRS, and assesses whether there any inconsistencies that the IASB should address.	There are many IPSASB standards which reference discount rates in some manner, such as IPSAS 29, <i>Recognition and Measurement of Financial Instruments</i> and IPSAS 39, <i>Employee Benefits</i> .	A research summary is expected Q2 2018.
