## **Program Management—IPSASB Work Program Update**

### **Purpose**

1. To obtain the IPSASB's agreement on the identified program management items outlined in the report.

### **Recommendation**

2. Staff recommends that the IPSASB:
  - (a) Agree to initiate the narrow scope project to consider IFRIC/SIC not yet addressed in IPSAS, discussed in paragraph [5](#);
  - (b) Agree to review the work program during the Friday September 15<sup>th</sup> Board session based on progress at the meeting;
  - (c) Note the work program related updates and information highlighted in paragraphs [6–12](#); and
  - (d) Note the activities and information highlighted in paragraphs [13–16](#).

### **Background**

3. All updates following the June 2023 meeting are reflected in [Agenda Item 3.3.1](#).
4. During the September 15<sup>th</sup> Board session, a work program update will be provided to the IPSASB, reflecting on progress during the meeting.

### **Analysis**

#### *Program Management*

5. At the June 2023 IPSASB meeting, some IPSASB members questioned the status of the IFRIC's in [Agenda Item 1.7, Table 3—IFRIC/SIC not Addressed by IPSAS/RPG](#). IPSASB members indicated a desire for IPSASB staff to invest additional resources to maintain alignment with IFRS by considering the IFRIC's issued but not yet considered by IPSASB, and in future to monitor the IFRIC agenda decisions to determine if there are any public sector considerations or actions arising from such decisions. As a first step, IPSASB staff have reviewed the outstanding IFRIC's not yet considered by the IPSASB and have determined that these are likely able to be addressed through a narrow scope project. Therefore, IPSASB staff propose a first discussion at the December 2023 meeting.
6. IPSASB staff notes that the names for two items on the September agenda differ slightly from the terms used in the respective staff papers, as follows:
  - (a) Agenda Item 9: Differential Reporting–Application Material, discusses this project as one to develop support material.
  - (b) Agenda Item 17: Implementation Group, discusses the establishment of an Application Panel.

Both projects related to items that are still under development and discussion. The terminology has evolved between when the agenda was posted and the board papers finalized for this meeting, which is why the terminology differs. The staff recommended the terminology that is used in the staff papers, rather than the labels on the posted Agenda.

*IPSASB Working Groups*

7. The use of different working groups by the IPSASB continues to evolve. Different working group tools are needed to provide the appropriate support for the efficient and effective development of projects at different stages in their lifecycle. The main working groups used by IPSASB at this time are Task Forces, Drafting Groups and Editorial Groups. See [Appendix 3.3.3](#) for a visual representation and overview of each group, and when each group is normally used in a project's lifecycle.
8. Task Forces are currently supporting the development of the following projects:
  - (a) Retirement Benefit Plans;
  - (b) Measurement–Application Phase; and
  - (c) Other Lease–Type Arrangements.
9. A Task Force for Presentation of Financial Statements will be established following the IPSASB's approval of the project brief, which is expected in September 2023.
10. As noted in Agenda Item 14, Natural Resources, a Drafting Group will be established to help with the finalization of the two Exposure Drafts (ED) under development under this project for the following reasons:
  - (a) For the core Natural Resources Exposure Draft, those concepts proposed in the Consultation Paper (CP) are now being integrated into the ED based on Board discussions and decisions during the March and June meetings, because the greenfield thinking that went into the CP was largely supported, with clear direction on key concepts. The challenge in developing the ED is to ensure the concepts and principles agreed by the Board are appropriately articulated in the detailed drafting. A task where a drafting group is more appropriate than a Task Force; and
  - (b) The ED to propose guidance aligned with IFRS 6, *Exploration for and Evaluation of Mineral Resources* is a project with a relatively straight forward aim. Asking the drafting group to review the text should add value by limiting the IPSASB plenary time required to review text where relatively few (if any) changes of substance are likely to be necessary.

Similar to the Revenue and Transfer Expenses projects where a drafting group was recently used, any key issues identified through the group's work will be brought to the IPSASB for consideration, including the recommendations from the drafting group for review and approval by IPSASB.

11. Please note that during the afternoon on Thursday, September 14, time for Task Force meetings has been added to the agenda. IPSASB staff leading projects will utilize this meeting time and reach out to Task Force members directly to share information for these meetings.

*2023 and 2024 Meeting Information*

12. [Agenda Item 3.3.2](#) includes a summary of the remaining meetings dates for 2023 and meeting dates and locations for 2024. IPSASB staff highlight that the June 2024 meeting dates have been moved back by one week, because of a conflict with city-wide event in Toronto with the original dates. This was previously communicated to members, technical advisors and observers during the check-in meeting in July 2023 and via email. However, IPSASB staff wanted to highlight the revised dates:

- (a) IPSASB CAG Meeting – June 24, 2024; and
- (b) IPSASB Meeting – June 25–28, 2024.

Please ensure to update these dates in your calendars for your travel and meeting planning purposes.

*Sustainability*

- 13. The IPSASB chair, staff, members and technical advisors continue to engage in outreach with a range of stakeholders related to the important ongoing sustainability initiative, as noted in Agenda Item [1.6—IPSASB Representation Liaison Activities](#). These activities have become increasingly important as a number of new stakeholders begin to take interest in and engage in the IPSASB's work. Since the June meeting, preparatory work has also been undertaken to establish the working groups needed to support the Board's future sustainability reporting work as described in Agenda Item 13—Sustainability—Climate-Related Disclosures.
- 14. Sustainability funding continues to be an ongoing focus for IPSASB staff. There are a number of ongoing discussions related to both funding and potential in-kind secondments. IPSASB staff will provide updates when any arrangements are agreed.

*Upcoming Outreach Activities*

- 15. As noted previously, IPSASB staff are working with a number of partner organizations to hold regional roundtables to obtain direct input on the proposals in the IPSASB Strategy and Work Program 2024-2028 Consultation to be approved in September 2023. The details of the roundtables planned are as follows:
  - (a) October 12, 2023 – Lima, Peru: Hosted by the FOCAL<sup>1</sup> network.
  - (b) October 20, 2023 – Abu Dhabi, UAE: Hosted by the UAE Accounting and Auditors Association, with support from World Bank, IFAC and ACCA.
  - (c) October 25, 2023 – Manila, Philippines: Hosted by the Asan Development Bank.
  - (d) November 29, 2023 – Brussels, Belgium: Supported by Accountancy Europe.
  - (e) Two events are under consideration for the Africa region in late January—Early February 2024. IPSASB staff are in discussions with the Pan African Federation of Accountants and the African Union about these two events and the early thinking is that one event will be specifically for Francophone Africa (and will be in French), and the other event will be for non-Francophone Africa (and will be in English, with potential interpretation to other languages).
- 16. These roundtables will be organized and led by IPSASB staff. However, IPSASB staff would appreciate help and support from regional members, if availability and schedules permit. IPSASB staff are cognizant that this is an additional ask on time of volunteers and the resources of their supporting organizations. If IPSASB members or technical advisors are interested to support the events and have the capacity, resources and availability to do so, please let the IPSASB Program and Technical Director, Ross Smith know via email at [rosssmith@ipsasb.org](mailto:rosssmith@ipsasb.org).

<sup>1</sup> FOCAL is the Governmental Accounting Forum of Latin America.

**Decision Required**

17. Does the IPSASB agree with the Staff recommendations in [paragraph 2](#)?
